Dear Dr. Pacheco and Julie,

What amazing thing happened when I connect with your office!! First - day one was a great reunion - and the results were very pleasing. I just love being there. Your office energy is 100% pristine. I'll remember this time.

Next, on day two!! Now, that was an experience. What a hoot! 600 zaps – lordie – amazing. It was survival ---- and I now realize the darvocet did kick in! Blowing cold air down your front is a bit beyond what my boundries are! You were such good sports. The next morning when I awoke- I get amused - thinking of leaving the office clutching 2 pink cupcakes, a big napkin full of nuts, dark chocolates - What was I thinking? And worst of all, I ate it all

I will tell you it was a memory making experience. You are just wonderful. Thank you for you for being such great people – I love you both – “The Elba and Julia Show Team”.

Looking forward to seeing you in a couple of months. Have a good summer.

What fun. --- Your happy patient.

With affection & beyond,

*Ruth*

P.S. very little bruising today !!☺
